

LOGGE'S SPEECH WON THE DAY.

PLANK FOR IMMEDIATE TARIFF REVISION BEATEN.

Delegate to Massachusetts Republican
state convention had submitted it
A defense of the Administration
Mr. John L. Bates for Governor.

Boston, Mass., Oct. 3.—A brilliant and
remarkable impromptu speech by Senator
Henry Cabot Lodge at the Republican
state convention this afternoon saved the
day for that plank of the platform which
called for immediate revision of the tariff.
President Roosevelt's tariff-revision
policy.

After the usual routine in connection with
the opening of a convention, and after
former Gov. John D. Long had delivered
a masterly defense of the Administration
as chairman of the gathering, the committee
on resolutions, through Gen. George A.
Draper, its chairman, submitted its report
which was the platform drafted late yester-
day afternoon by Senator Lodge.

Then Mr. Bates himself moved that the
platform be adopted, but at this juncture
former Representative Frank E. Fitts of
Somerville moved to amend that part of
it which referred to revision of the tariff.

He submitted a resolution which called for
immediate tariff revision and a demand for
reciprocity with Canada as well as with
Cuba.

Mr. Fitts said he had offered his plank
to the committee, which had turned it down
in short order, as he felt obliged to
bring it before the delegates. In support
of his amendment he quoted from President
McKinley's last speech favoring reciprocal
relations with Canada and called upon the
convention to stand by the Buffalo address
of the late President. He made the asser-
tion that if the delegates neglected these
issues the effect would be felt at the polls.

By this time it was evident from the action
of the delegates that they were divided
upon the question, Fitts receiving both
opponents and injunctions to "shut up" and
"sit down."

Representative Odell of Lynn supported
the Fitts amendment in an impassioned
speech, declaring that the tariff must
be revised, and that the tariff must be
revised.

Then Mr. Lodge arose and there was a
tumult of cheers. It was then noticeable
that the action of the Senator had not been
on the schedule. He set the convention wild
with his speech.

Mr. Lodge said that it was not the pro-
vince of the convention to act as a legisla-
tive body, and that its only business was
to endorse in its platform the broad, gen-
eral principles that should be adopted.

He asserted that the convention could not
understand the detailed revision of the tariff
and that the Republican party stood ready
to make such changes as the conditions at
any time might require.

He impressed upon his hearers the dan-
ger of the setting up of his will and wishes
against the will of the people, and he re-
minded them that Massachusetts was but
a small part of the United States. He said
it would be fatal for this State to attempt
to dictate to the other States in the matter
of tariff revision.

Touching the question of reciprocity
with Canada, Mr. Lodge said that the
Republican party should be content with
negotiations looking to that end, but that
there never would be reciprocity with the
country that required the forfeiture of any
part of the United States.

He then turned to the question of Cuba,
and he said that the tariff should be
revised, and that the tariff should be
revised.

He then turned to the question of Cuba,
and he said that the tariff should be
revised, and that the tariff should be
revised.

He then turned to the question of Cuba,
and he said that the tariff should be
revised, and that the tariff should be
revised.

He then turned to the question of Cuba,
and he said that the tariff should be
revised, and that the tariff should be
revised.

He then turned to the question of Cuba,
and he said that the tariff should be
revised, and that the tariff should be
revised.

He then turned to the question of Cuba,
and he said that the tariff should be
revised, and that the tariff should be
revised.

He then turned to the question of Cuba,
and he said that the tariff should be
revised, and that the tariff should be
revised.

He then turned to the question of Cuba,
and he said that the tariff should be
revised, and that the tariff should be
revised.

CASTRO'S ARMY SURROUNDED.

Beaten in an Attempt to Reach Venezuelan Capital.

Special Cable Dispatch to THE SUN.
PARIS, Oct. 4.—A despatch to the *Matin*
from Port of Spain, Trinidad, says that a
battle was fought on Oct. 1 between Venezu-
elanian Government forces and the Revolu-
tionists, the result of which is unknown.
The rebels surrounded the Government
forces.

It is thought that President Castro with
his army attempted to enter Caracas, but
was unable to do so. The rebels were
numerically stronger than the Government
force and intercepted the latter's communi-
cations.

There is intense excitement in Caracas.
The impression is that the war is nearing
its end and that President Castro has been
definitely beaten.

The despatch adds that news has been
received from Guayana to the effect that
the French Consul agent at that place
and the manager of the French Cable Com-
pany, who were arrested by order of Gen.
Vellutini, have been released. The French
population are very indignant at the arbi-
trary acts of Gen. Vellutini, who is the son
of a Frenchman and who was destined by
President Castro to represent Venezuela
in France. Energetic action on the part
of the French Government is expected.

CUBA DOESN'T LIKE OUR TERMS.

Objection to the Suggested Form of a Commercial Treaty.

Special Cable Dispatch to THE SUN.
HAVANA, Oct. 3.—The *Lucha* says regard-
ing a treaty with the United States that
President Palma is in a difficult position.
The paper understands that the terms of-
fered by the United States are a 20 per cent.
reduction of its tariff in return for large
reductions in the Cuban duties on American
products. This would mean the shutting
out of imports from other nations and a
great reduction in the customs receipts,
which would embarrass the republic finan-
cially.

The *Lucha* holds that a 20 per cent.
reduction in the American tariff in favor
of Cuba is too little in return for what
the United States asks from Cuba. The
paper adds that President Palma's sym-
pathies are American.

MUST CALL HIM MESSIAH.

No Longer Answers to the Name of the Rev. J. H. Smyth Pigeot.

Special Cable Dispatch to THE SUN.
LONDON, Oct. 3.—A clergyman of the
name of Brown challenged the Rev. J. H.
Smyth Pigeot, who says he is the Messiah,
to a public debate.

Douglas Hamilton, Pigeot's secretary,
replied that if outsiders wished to reach
the Messiah, they must do so in an irre-
sistible manner. Anything addressed to
him would be disregarded. He had ceased
to exist. A request addressed to the
Messiah would be attended to.

Mr. Hamilton added that he was not the
secretary of Pigeot, but was as John,
the beloved disciple, to Jesus Christ.

SOLDIER KILLED NEAR HAVANA.

American Artilleryman Found on the Road to the Fortress.

Special Cable Dispatch to THE SUN.
HAVANA, Oct. 3.—William Mack, of the
Twentieth Coast Artillery, stationed at the
Cabaña Fortress, opposite Havana,
was found last night near the camp with
wounds in his head and left side, paral-
yzed. He was conscious when found.
He was taken to the hospital, where he
died a few hours afterward.

It is suspected that he was a victim of
foul play, although he divulged nothing.
He was in Havana last night and had been
drinking. It is supposed that he was at-
tacked while returning from the city.

SELMIA LOST HER WATCH.

On That Account the Newest, Richest Boarder Was Locked Up.

A policeman of the East Sixty-seventh
street station was called into the boarding
house of Mrs. Pauline Rothschild last night,
and was asked by Mrs. Rothschild to arrest
one of the boarders for stealing a diamond-
studded gold watch, valued at \$75, from her
daughter's room. The policeman was a
little shabby about the matter, so he advised
all hands to go to the station and settle it,
and they did.

Sgt. Quilty was on the desk when the
accused boarder, Mrs. Rothschild's daughter,
Selma and four other female boarders
arrived.

"What's the trouble?" he asked.
"We want this woman arrested for steal-
ing my daughter's watch," said Mrs. Roth-
schild, pointing to the boarder. "She hasn't
been here with us long and we don't know
her. We know every one else in the house
and to-day my daughter's watch disappeared.
We want to have her arrested and held on
suspicion until we can investigate."

"Do that," said the sergeant.
"In order to have her held you will have
to make a direct charge accusing her of
having stolen the watch."

"That's all right," said Selma and her
boarders went into executive session for
a few minutes and decided to make a
direct charge.

"It's foolish to accuse her of stealing a
watch," said Selma. "What do I want of
a thing like that? I am well off. I own
a house and lot on West Forty-seventh
street and there's no mortgage on it either."

The sergeant said that as a direct charge
of larceny had been made against her,
she was obliged to lock her up. When
he took her to jail she said she was Mrs.
Edna Barton and gave her address at the
Rothschilds' boarding house.

"That's all right," said Selma. "I know
you. I've known you for years. You under-
stand, it's my right name anyway,"
answered the prisoner. "I guess it's my
privilege to go under any name I choose."

When Mrs. Barton was searched in the
matron's room a good deal was found
which substantiated her story of being well
off. She was handsomely dressed and on
her fingers were three valuable diamond
rings. She also wore a diamond horseshoe
pin. In a bag which she carried the matron
found jewelry and diamonds valued by the
police at about \$20,000. There were three
bracelets set with large diamonds, two
pairs of diamonds and emerald earrings,
the diamond rings, a crescent pin set with
diamonds and two valuable stockings.

She also had a bank book which showed
a balance of \$16,000 to her credit, and checks
for a total of \$1,200. Both checks and the
bank book bore the name of Mrs. Edna
Barton. She was locked up.

Superb weather for the famous Hudson River
Day Line trips. Grand scenery. Music.—Ad.

WARSAWIAKS WANT MORE.

WIFE OF THE APOSTATE WOULD LIKE TO BORROW \$300.

To Bring Her Dear, Tormented Daughter
Here From Russia—Not Begging,
Just Borrowing on Unsecured Notes
—Helen's a Lovely Christian Girl Now.

Mrs. Herman Warszawiak, wife of the
man who caused so much trouble for the
late Dr. John Hall, has a yearning for money
and her husband's thirst is equalled only
by her daughter's thirst for souls.

So far as the public has been permitted
to perceive Mr. Warszawiak does not cease to
solicit shillings with one hand around the
wide world, while he invites souls with the
other at the corner of Grand and Attorney
streets.

It now develops that his wife is ex-
ercising a similarly extensible arm for
the collection of a sum which she names at
\$500, and to which she invites wealthy
and charitably disposed persons to con-
tribute by cashing her unsecured prom-
issory notes and providing checks for the
amounts represented by her.

Here is a sample of the woman's method
of procedure, in the form of extracts from
a letter lately received by a woman upon
whose charitable inclinations she thought
she could thus clumsily play.

DEAR MRS. BLANK: I know that you are a
good friend to my husband, and greatly in-
terested in his welfare, and I am sure that
you will be able to help me in my need.
I am in a very difficult position, and I
am sure that you will be able to help me
in my need.

You know that when I accepted the Lord
Jesus and became a Christian I unfortunately
lost my dear daughter, Helen, who was
lovingly and devotedly brought up in Russia.
I was pleased to see her dear old daughter
Helen to be now near me, and I am sure
that you will be able to help me in my
need.

My dear daughter, Helen, is a lovely
Christian girl, and of course a great
soul-winning power. I am sure that you
will be able to help me in my need.

My dear daughter, Helen, is a lovely
Christian girl, and of course a great
soul-winning power. I am sure that you
will be able to help me in my need.

My dear daughter, Helen, is a lovely
Christian girl, and of course a great
soul-winning power. I am sure that you
will be able to help me in my need.

My dear daughter, Helen, is a lovely
Christian girl, and of course a great
soul-winning power. I am sure that you
will be able to help me in my need.

Christian girl, and of course a great
soul-winning power. I am sure that you
will be able to help me in my need.

SENATOR VEST NEARLY BLIND.

Seeking to Recover His Sight at the Hands of a Baltimore Specialist.

Baltimore, Md., Oct. 3.—Almost blind
and otherwise physically weak, Senator G.
Vest is in Baltimore seeking to recover
his sight at the hands of a specialist. He
is undergoing treatment with Dr. Henry
F. Garey, inventor of the ophthalmic oscil-
lator, by which method Senator Hernando
Money of Mississippi recovered his sight.

Senator Vest came over from Washington
last Wednesday. He is unable to get about
without the aid of an attendant.

NEW BRIDGE RELIEF PLAN.

Take Bridge Train and Find Trolley Car Waiting for You in Brooklyn.

Another plan to relieve the crush at the
Manhattan end of the Bridge was an-
nounced yesterday. The Brooklyn Rapid
Transit Company will put into operation a
transfer system between the Bridge train
and the trolley cars in Brooklyn. It is
thought that many persons who now board
trolley cars on the Manhattan side will
take the Bridge trains to Brooklyn and
there transfer to trolley cars awaiting them.

NEW BRITISH AMBASSADOR HERE.

He Has Ridden, Boxed and Fenced With Roosevelt in Days Gone By.

The Canadian *Canampan*, which arrived
on the Hook last night from Liverpool
and Queenstown, has aboard Sir Michael
Herbert, the new British Ambassador to
the United States. His wife is with him.
She was Miss Leila Wilson, daughter of
Richard Wilson and sister of Mrs. Ogden
Golet and Mrs. Cornelius Vanderbilt, Jr.
Ambassador Herbert was British Chargé
d'Affaires here in 1888. He has ridden,
boxed and fenced with President Roosevelt.

YOUR RED TAPE, MR. GROUT.

School Commissioner Burlington Says But Board of Education Is Too Big.

President Charles C. Burlington of the
Board of Education said yesterday that
Comptroller Groot couldn't pick a row with
him.

Mr. Burlington was referring to the
Comptroller's criticism, on the day before,
of the board's way of doing business and
of the delay in auditing bills and preparing
the school budget. The Comptroller also
said that a single-headed school commission
would be better than the Board of Educa-
tion with its forty-six members.

"Mr. Groot," said President Burlington,
"is right in his criticism. The board is too
big. It is absolutely impossible for the
Comptroller to look after a better or more
economical management of the school
system. I am sure that if the board were
smaller it would be able to do its work
more efficiently. I am sure that if the
board were smaller it would be able to do
its work more efficiently. I am sure that
if the board were smaller it would be able
to do its work more efficiently. I am sure
